REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation: 702 KAR 7:065

Agency Contact Person: Kevin C. Brown

(1) Provide a brief summary of:

(a) What this administrative regulation does: KRS 156.070 requires the Kentucky Board of Education (KBE) to manage and control the common schools, including interscholastic athletics in the schools, and authorizes the KBE to designate an agency to manage athletics. This regulation designates the Kentucky High School Athletic Association (KHSAA) as the agent to manage high school and middle school interscholastic athletics, and incorporates by reference the bylaws, procedures and rules governing interscholastic sports.

(b) The necessity of this administrative regulation: This regulation is necessary to designate the agency to provide the day-to-day management activities of interscholastic athletics in Kentucky; to set forth the financial, planning and review processes governing the agent; and to incorporate by reference the bylaws, procedures and rules of the agency.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The regulation designates the agency to manage interscholastic athletics, as authorized by the authorizing statute, and outlines the conditions under which this authority is granted.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It designates the KHSAA as the agent to manage interscholastic athletics in the schools and districts at the high school and middle school levels, and publishes changes in bylaws, procedures and rules for affected schools and districts.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: These amendments make changes to the documents incorporated by reference, in the KHSAA Bylaw 6 as adopted by the KHSAA Delegate Assembly, and adds health and safety requirements for middle school athletics as recommended by the Middle School Interscholastic Athletics Advisory Committee.

(b) The necessity of the amendment to this administrative regulation: Pursuant to the KHSAA Constitution, which is incorporated by reference in this regulation, the members are required to have an annual meeting to discuss and recommend any needed changes to the Constitution and Bylaws. While they are not required to make changes to the Constitution and Bylaws, changes must be made through this process. This amendment incorporates changes approved at the annual meeting of the Delegate Assembly. This amendment also is necessary to designate the KHSAA as the agent to manage interscholastic athletics at the middle school level.

(c) How the amendment conforms to the content of the authorizing statutes: The statute authorizes the KBE to designate an agency to manage interscholastic athletics in the common schools. The regulation designates the KHSAA as that agent at both the high school and middle school levels, and incorporates by reference the KHSAA Handbook, which consists of the

KHSAA Constitution, Bylaws, and Due Process Procedure to provide rules and guidance to the member schools and districts governing sporting events. The amendments in the Bylaws are made annually, according to the process outlined in the Constitution, and reflect input given by member schools and districts on changes that need to be made to provide a more sound structure of governance.

(d) How the amendment will assist in the effective administration of the statutes: See (c) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: 173 School Districts and other member schools of the KHSAA.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: There will be little impact because of the nature of the changes to the regulation. There are requirements that continue to be placed on schools and coaching personnel, however the training required to meet these requirements will be provided at no costs to the schools or the coaching personnel.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: Minimal

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: KHSAA is funded through membership fees and dues, as well as from gate receipts from the various state championships.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: None

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: None

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all school districts.

STATEMENT OF CONSIDERATION
RELATING TO 702 KAR 7:065
Kentucky Department of Education

Amended After Comments

1. A public hearing was scheduled on the above regulation on July 22, 2016 at 10:00 a.m. Eastern Time, in the State Board Room Kentucky Department of Education, 500 Mero Street, 1st Floor, Frankfort, Kentucky but was cancelled when no one appeared to speak.

2. The following individual submitted written comments:

<u>Name and Title</u>	<u>Agency/Organization/Entity/Other</u>
Ralph M. Shenefelt, Senior Vice President	Health and Safety Institute

3. The following people from the promulgating administrative body responded to the written comments:

<u>Name and Title</u>
Kevin C. Brown, General Counsel/Associate Commissioner, Office of Guiding Support Services
Julian Tackett, Commissioner, Kentucky High School Athletic Association
Chad Collins, General Counsel, Kentucky High School Athletic Association

Summary of Comments and Responses

1. Subject Matter: CPR Requirements for middle schools coaches

(a) Comment: Mr. Shenefelt requested the following amendment to the CPR requirements for middle school coaches: "Provide to the school documentation of successful completion of a CPR course including the use of an automatic external defibrillator and the first aid training, based on the American Heart Association's Guidelines for CPR and Emergency Cardiovascular Care or other nationally recognized, evidenced-based guidelines. Initial Certification shall use in-person instruction and incorporate into the instruction the psychomotor skills necessary to perform CPR. Courses shall be conducted by an instructor or program approved by a college or university, the American Red Cross, American Heart Association, Health and Safety Institute or other bona fide accrediting agency. Certification shall be updated as required by the approving agency."

(b) Response: The KHSAA Sports Medicine Committee, in consultation with the Kentucky Medical Association, routinely evaluates all sports medicine policies promulgated or evaluated as a part of this administrative regulation. It is not the agency's practice to ever endorse a for-profit entity for any services by name as is requested. However, the comment correctly

recognizes that the language of the bylaw as it relates to the high school level coaches allow for "other bona fide accrediting agency" to conduct this training. There is no objection to having this same language as contained in the bylaw that would allow for the organization in question to conduct the training as sought. However, the requirements as they relate to initial versus recurring training or incorporation of the requirement regarding psychomotor skills, will require further consideration and review by the KHSAA Sports Medicine Committee, in consultation with the Kentucky Medical Association. Finally, any requirement to include any other nationally recognized evidence based guidelines is too broad and would be in conflict with the requirements of KRS Chapter 13A. With that in mind, the agency is open to any dialogue with the commenting agency regarding future amendments to this administrative regulation which is done on an annual basis. A change to this administrative regulation has been made in response to this comment.

Summary of Statement of Consideration Action Taken by Promulgating Administrative Body

The Kentucky Department of Education received one written comment during the public comment period for administrative regulation 702 KAR 7:065. The Commenter filed this comment on behalf of his employer, Health Safety Initiatives, a privately held for-profit organization that conducts CPR training as well as other similar training. The Commenter requested one amendment that essentially included three areas. First, they would like to be named as a provider of the required CPR training in the administrative regulation. Next, they would like the requirement to incorporate "other evidence based guidelines" but do not specifically identify these guidelines. Finally, they also request the addition of "instruction in psychomotor skills" and that the recertification be in person.

While the agency does not believe that specifically naming this organization to be in the best interest of student safety at this time, there is no objection to allowing for an "other bona fide accrediting agency" to provide this training as is already allowed by the KHSAA Bylaws that apply specifically to high school coaches. This would be an acceptable amendment and has thus been incorporated accordingly.

As for a requirements regarding "instruction in psychomotor skills" and that the recertification be in person, this requires more study. The KHSAA Sports Medicine Committee, in consultation with the Kentucky Medical Association, routinely studies potential changes to all sports medicine policies. This is the first time any organization has noted any desire for potential change. While there may ultimately be no objection to these changes, there has not been sufficient time to analyze and collect feedback. In that light and in the interest of student safety, the agency would prefer to monitor implementation of the current language and evaluate the need to consider these additional suggestions to ascertain their feasibility for future amendments that occur on an annual basis.
